In Appreciation.
Resolutions of appreciation of Janesville and its hospitality were passed. The full text is as follows: "It is always the good fortune of this Grand Lodge to be received in the city where it holds its sessions with that hospitality and courtesy that is characteristic of the American people and the meeting of this year has certainly been no exception. We have had the pleasure of meeting in this beautiful city of Janesville. Before coming here we well know that its people have been with but a single idea, and that was to remind us that this was one of the foremost municipalities in the grand commonwealth of Wisconsin, and in this, we unanimously declare they have most appreciably succeeded. The character of its representatives to the sessions of this body in years past, reflects the general consciousness of its whole people. Progressiveness, hospitality, friendliness, and that high order of intelligence that makes for good order and principle are virtues that demand the whole people of Janesville everywhere. We appreciate the generous and untiring efforts of the Odd Fellows and Rebekahs of Janesville. They have done themselves proud. The entertainment they have furnished us will long be cherished in memory and especially will be remembered the splendid welcome which was accorded us. Sisters and Brothers of Janesville, to you we lift our hats in reverence and respect."

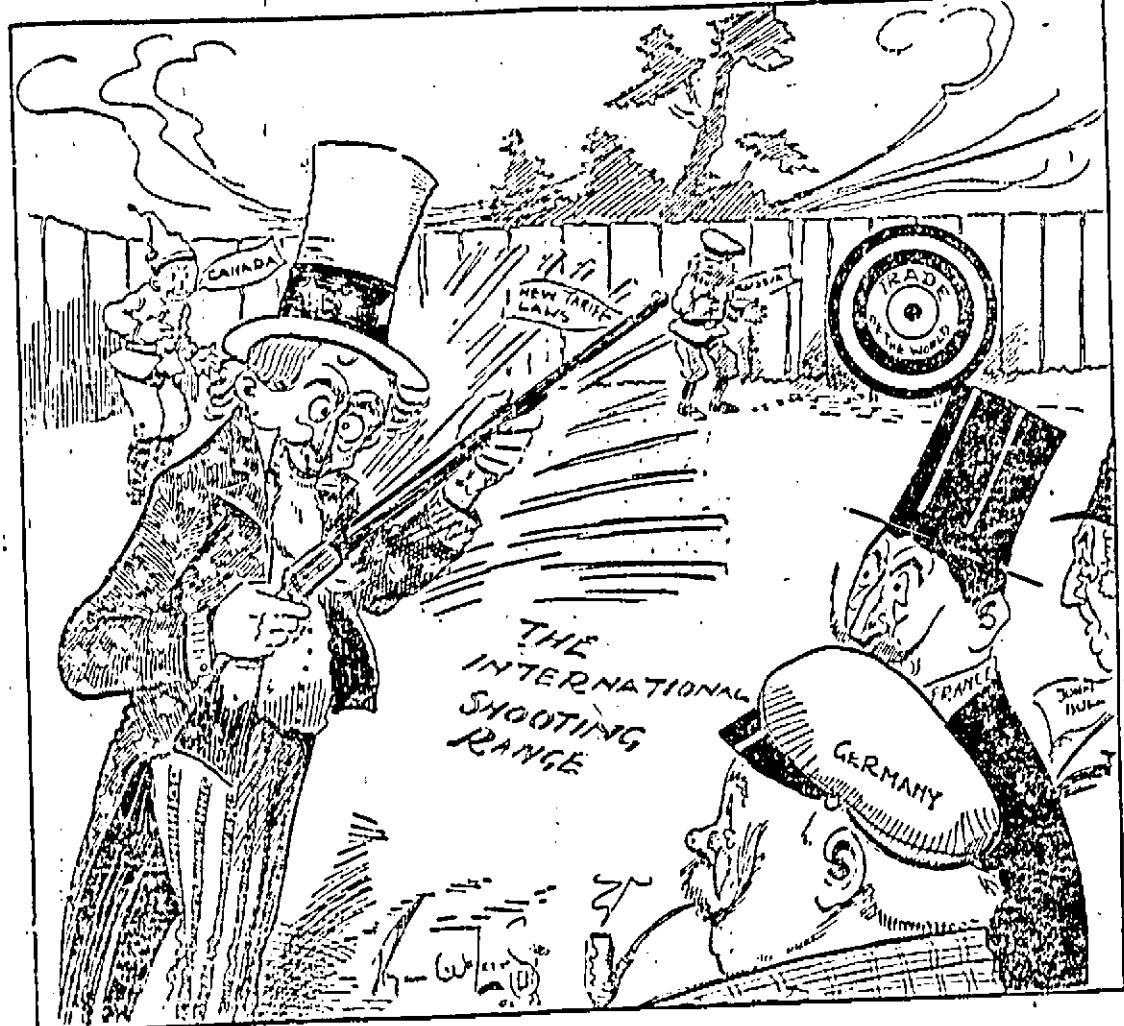

Resolved. That the Grand Lodge I. O. O. F. of the jurisdiction of Wisconsin, in meeting assembled, does hereby express its deep appreciation of the generous and warm welcome of the city of Janesville which was given a full and hearty one to the Grand Lodge of Wisconsin, to you we lift our hats in reverence and respect."

MISS BEATRICE THAW WEDS ITALIAN NOBLE

Daughter Of Harry Thaw's Half-Brother Married To Marchese Theodoli In Rome.

[SPECIAL TO THE GAZETTE.]
New York, June 3.—A despatch from Rome says that the wedding of Miss Beatrice Thaw and the Marchese Francesco Theodoli took place today at the Thaw villa in that city and was largely attended by the aristocracy as well as the leaders of the American colony in the Italian capital.

The bride is the daughter of Mr. Thaw, a half-brother of Harry K. Thaw. The family belongs in New York, but has lived in Rome for the last three years, and it was there that Miss Thaw met her future husband. Miss Thaw's girlhood was spent at her father's country estate at Spar-kill-on-the-Hudson, where he had built one of the finest summer palaces in America. The death of two younger Thaw children induced their parents to seek a change of scene, and they enjoyed a brief sojourn in California. When the terrible tragedy on the roof of Madison Square Garden darkened their door, Mr. Thaw determined to seek a permanent home abroad, and located in Rome, where the education of Beatrice and her younger sister, Barbara, was completed.

The family soon became a part of Rome's social life. In the round of society functions Miss Thaw met the Marchese Theodoli, tall, handsome, aged twenty-three. It was a case of love at first sight and within a few weeks the couple were betrothed. The civil marriage took place in London the latter part of April and now that the religious ceremony has been performed it is expected that the Marchese and his bride will soon come to America to spend their honeymoon.

Consideration of a bill to facilitate the prosecution of certain Indians for violations of the excise laws was the occasion for spirited remarks by Senator Paul A. The following bills were passed: 42a. (Whitman) Penalty of \$100 for selling liquor in "dry" territory. 213a. (Egan) Compelling use of fire escapes on all factories employing 25 or more people. 488a. (Stewart) Increasing the liability of manufacturers for damages resulting from dangerous corn shredders.

602a. (Leitoy) Prohibiting the sale of liquor to minors even on permit of parents in writing.

Over a Thousand Visitors

Over a thousand delegates and visitors attended the sessions of the two fraternal bodies, in isolated instances there was a little confusion now and then but in the main all the pilgrims were promptly and well cared for. The Hotel Myers installed 32 cots in order to take care of 182 Odd Fellows and Rebekahs and about the same number were put into requisition at the Grand hotel. Both hosteleries served some meals to as many as 300 guests.
Quiet and Earnest Men
The visiting Odd Fellows, for the most part, were a body of quiet, earnest men and the great majority of them spent most of their time at the sessions and very little in front of the restaurants and clubs. It is said that the restaurants raised the price of their table d'hôte meals from 25 cents to 35 cents, but the proprietors justify themselves by the contention that these meals, under ordinary circumstances, are served without profit. In order to attract permanent customers for the "table d'hôte" just as the grocery-men sometimes sell sugar at or below cost as a "leader." At any rate it can hardly be charged that there was any gross extortion. In these times of high prices for food-stuffs.

Elks' Bathing Suits

Many of the visiting Odd Fellows called at the Elks' club rooms and were given a cordial welcome there. The six beautiful purple-and-white bathing-suit effects in bunting over the front windows were a work of art, and the designers, James Cullen and John Lynch, are receiving many congratulations.

No Unpleasant Incident

No unpleasant accident or incident marred the sessions and several of the men who were candidates against one another in the fore contents for the high offices were generally chatting and swapping anecdotes at the same dinner table this noon. Jansville was glad to welcome the visiting host and hopes that all will, at some future time, pass through its gates again.

WOULD-BE-BURGLAR
CAUGHT IN THE ACT

John Singer of Harvard, Attempted to Enter Clinton Shop—Captured After Long Chase.
(SPECIAL TO THE GAZETTE.)
Clinton, Wis., June 3.—In the capture of John Singer of Harvard it is believed that the man has been captured who has been making thefts of copper, brass, aluminum and other metals from the Smith & Holtum Manufacturing company of this place. Singer was captured by Christ Holtum, son of one of the members of the firm, just as he was attempting to enter the shop this morning. The young man is the son of Baggage Master Singer of Harvard, who on learning of his son's imprisonment, telephoned to have the preliminary hearing of the case delayed until he arrived in Clinton at eleven o'clock.
The Smith & Holtum Manufacturing company has for many months past been making raw material used by them in their plant, such as copper, brass and aluminum. A close watch has been kept, someone being at the plant on watch all night nearly every night for the last two months. A peculiar circumstance was that the thefts were nearly always committed soon after a new shipment of metal had been received. The watch being unsuccessful it had been relaxed somewhat the past few days and another shipment of raw metal had been received. Christ Holtum, son of A. Holtum, president of the company, went to the plant this morning very early, reaching there about 4 o'clock, and went up to the work on some patterns, when he noticed in the dim early morning light a man approaching the plant. As his actions attracted his attention he kept watching from the windows the stranger sneaked around the building, carefully looking about him on all sides, and finally stopped up to a rear door. Holtum then took a revolver and dashed down the stairs and found the stranger trying to manipulate the lock on the back door. Suddenly, he opened the door and confronted the burglar, who took to his heels, running to the C. & N. W. Ry. yards, dashing in and out among the cars, and finally, fearing the fellow would escape, Holtum fired three shots at him and told him to stop or he would shoot to kill. The man threw up his hands and was marched up Main street to Marshal Baldwin's house. The fellow was locked up in jail and District Attorney Fisher notified.
Young Singer has for some months past been making more or less regular trips to Clinton, going home on the early morning trains. The fact

Ungrateful Snore Refuted.

A crusty old bachelor, hearing that his friend had gone blind, said: "Let him marry, and if that does not open his eyes, nothing else will." But that snore has been confuted by the experience of many blind scholars, like Wood, famous authority on bees, and Fawcett, political economist at Cambridge and England's most famous postmaster general, whose highly qualified wives were eyes indeed to their husbands.

WE MEAN BUSINESS
A short time ago, one man brought a bill of lumber into our office for estimate, which was also being figured in Chicago. One of the items was 3000 ft. of 4 in. No. 1 Basswood Siding. We said, "Mr. Blank, we suppose you want Clear Basswood Siding?" "Yes," he wanted the best. We asked him if he knew that "No. 1" was a grade lower than "Clear." He believed that No. 1 was the best, and so do two-thirds of the people who buy lumber. We said, "Mr. Blank, if you want No. 1, we will make a difference of \$15.00."
Had this bill been bought out of town, he would have received exactly what the estimate called for, and would have been compelled to put into his house a grade of lumber inferior to what he wanted or else kept it and purchased "Clear" Basswood Siding. We aim to hold the business in Jansville that rightly belongs here. Our method is PRICE. If we cannot quote as low a price as any firm in the world, BASED UPON EQUAL QUALITY OF GOODS, we cannot expect the business. In addition we will give better service than any other firm in the Northwest, and, if you have bought too much or too little, you can adjust these difficulties with us, while they could not be adjusted if you bought out of town, only at a greater expense.

MYSTERY IN DEATH OF AGED DOCTOR

DR. JOHN T. BINKLEY FOUND
SHOT IN A HOTEL
ROOM.

RELATIVES CALL IT MURDER

Chicago Police Believe Evansville
Physician Committed Suicide—
Valise Ransacked and Watch and
Money Missing.

Chicago, June 3.—With a bullet wound in his head, Dr. John T. Binkley, 82 years old, a retired physician of Evansville, Ind., was found dead in a room at the Wellington hotel and the police are at work on the mystery. They sought to explain it at once by declaring that the octogenarian had died by his own hand and in this effort they were supported by the hotel employees.

Family Calls It Murder.
Members of the physician's family, however, absolutely refused to accept this theory, and declared that the aged man had been killed by robbers. They announced that, regardless of what the police did, they were determined to investigate independently.

The disappearance of the dead man's watch and chain, his purse and the discovery of his partially rifled valise in a bathroom near his room, seemed to bear out the relative's charge of murder. The position in which the body was found, the nature of the wound and the distance of the revolver which fired the bullet that caused death from the body also seemed to support their contention.

Daughter Discovers Body.
The discovery of Dr. Binkley's body was made by his daughter, Mrs. George E. Upchurch, and her daughter Eleanor, 23 years old, who had left the aged physician alone only an hour before 5:45 p. m., the time it was found. He was sitting in a chair by the bed. There was a bullet wound in the left side of the face, the bullet taking an upward course. A 32-caliber bulldog revolver, with one chamber empty, was found on the bed to the right of the dead man.

After the body had been removed to Rolston's undertaking rooms by permission of Coroner Hoffman it was carefully examined by the detectives. They said it bore powder marks near the wound, indicating that the revolver had been held close to the face.

The tragedy came as a sad ending to a merry family party. Dr. J. T. Binkley, Jr., his daughter, Madeleine, who is now at Knoxville, Ill., and his niece, Miss Upchurch, were to have sailed from Montreal June 11 to spend the summer in Europe.

Arrived in the Morning.
Dr. Binkley, Sr., and Mrs. Binkley and Mr. and Mrs. George E. Upchurch and daughter, Madeleine arrived in Chicago in the morning from Evansville. They were met at the station by Dr. J. T. Binkley, Jr., and they took breakfast at the Wellington hotel. After breakfast Mrs. Binkley, Sr., was shown to a room and the other members of the party went shopping.

At noon all dined at a downtown restaurant, and afterward returned to the hotel. Dr. Binkley, Sr., and Mrs. Binkley retired to their rooms to rest and the others again went shopping. At four o'clock Dr. Binkley, Jr., and Mrs. Upchurch returned to the room where their father and mother were, and a few minutes later Dr. Binkley, Jr., his mother and Mr. Upchurch went to the Twelfth street station, where Mrs. Binkley and Mr. Upchurch took the five o'clock train on the Wisconsin Central railroad for Waukegan, Wis., to visit another son and daughter of Mrs. Binkley.

Dr. Binkley had resided in Evansville for nearly a quarter of a century. He went to Evansville from Shawnee town, Ill., and for many years enjoyed a large practice. He owned considerable property in Evansville.

LABEL CASE IS CONTINUED.

Party Leaders Will Testify in Indianapolis News Action.

Indianapolis, Ind., June 3.—At the request of the United States Attorney Stuart McNamara of the department of justice at Washington, and Charles W. Miller of this district, Judge Anderson continued the Indianapolis News libel case until October 11.

This action was taken to permit the prosecution to introduce as witnesses Frank H. Hitchcock, former chairman of the Republican national committee; Norman E. Buck, chairman of the Democratic national committee; George H. Cortelyou, certain members of the office staff of J. Pierpont Morgan & Co., and certain officials of various departments of the government at Washington.

College President Resigns.

LID ON FILIBUSTER; SOME SHARP TALK

VICE-PRESIDENT STOPS DILATORY TACTICS IN THE SENATE.

REPUBLICANS ARE WARNED

Senator La Follette in Vigorous Speech Declares Party's Pledge to People to Revise Tariff Downward Must Be Kept.

Washington, June 3.—Not caring to hear their party brought to task for its failure to keep its pledge to the people concerning a revision of the tariff downward, Republicans quickly left the senate chamber when Senator La Follette began a speech. As the Republican senators walked out Senator Bacon raised the point of no quorum, but the vice-president would not recognize his motion, thereby bringing the senate face to face with the purpose of the organization to force speed on the tariff bill by suppressing dilatory tactics. Frantic protests were made by Senator Bacon and others.

The vice-president, basing his action upon a precedent made in the last congress when the Aldrich-Vreeland currency bill was under consideration, held that the absence of a quorum could not be called to the attention of the senate. If the senator occupying the floor declined to yield.

Says Pledge Is Plain.
Senator La Follette in his speech made many quotations and maintained that no questions could be raised as to the pledge of the party for a revision downward and he declared that before he should conclude his speech he would demonstrate amply that on the whole the pending bill placed the customs duties above the rates of the Dingley law.

Asserting that 200 manufacturers of shoes came to Washington begging for a hearing before the committee on finance, because the hoof packers were obtaining control of the tanneries, Mr. La Follette prophesied that the packers would reach out and eventually control not only the tanneries, but all the products of leather.

Warns Republican Senators.
Looking about the chamber and into the faces of senators, he remarked: "It is all right for senators to smile in derision, but it is a pretty serious proposition to get the support of the voters of this country, who have a chance to speak once in four years. 'I am not a radical upon the system of protection,' he declared. 'I am a conservative. The men who have claim leadership of the Republican party are seeking to modify the system of protection.'"

Mr. La Follette will conclude his address today.

He yielded the floor to Senator Elikins, who delivered a set speech in favor of protection on coal and iron.

Nelson Opposes Protection.
After Senator Elikins concluded the session schedule was taken up and Senator Nelson of North Dakota made an attack on high tariff protection.

CITY COUNCIL MAY FIX FARES ON LINES

Circuit Judge Decides Injunction Brought by Manitowoc Against Car Company Is All Right.

Manitowoc, Wis., June 3.—That the city council has the right to fix fares on interurban lines in a franchise granted in the city streets to a company also operating interurban cars, is the ruling of Judge Klrwin in circuit court in refusing to dissolve an injunction issued against the Manitowoc-Northern Traction Co., against an increase of 5 cents in interurban fares. The court compels the city to give an increased bond of \$1,000 pending an appeal to the supreme court by the company. The company's intention is that the rate commission and not the city is the authority in the matter.

Ask Better Service.
See the officials have been addressed for a second time by a committee named by the mayor relative to better train service, a letter having been dispatched to headquarters asking the company to fulfill a promise made two weeks ago to give a new schedule. R. A. Cook, who was here for the river conference convention Monday, Sunday and Monday he called in the protest to the 800 and a communication may be sent the council in those cities asking co-operation.

Will Visit Taft.
En route from Manila to his old home in Scotland to attend the golden wedding celebration of his parents, James Mitchell, a brother of Dr. R. S. Mitchell, this city, will be a guest of President Taft at Washington for ten days or at Mr. Taft's summer home. Mr. Mitchell became personally acquainted with Mr. Taft when he was governor general in the Philippines and when Taft was elected president sent a letter of congratulations and received an invitation to visit the president which he has accepted. Dr. Mitchell also plans to go to Scotland.

ALL STATE SCHOOLS WILL BE IMPROVED

Measure Engrassed by Assembly Yesterday Will, If Passed, Help All Instead of Few.

Madison, Wis., June 3.—Wisconsin started on a new policy of education at the normal schools yesterday, when the assembly after a strenuous fight ordered to a third reading the Morris bill for the establishment of the dormitory system in connection with the Superior normal school. The appropriation is for \$25,000. When the bill was taken up for consideration, Assemblyman Hull presented an amendment to strike this feature from the measure. Assemblyman Johnson, Shaw and Hull thought the common schools were entitled to this money. Assemblyman Stuck explained the difficulty in housing students, without a dormitory plan. The Hull amendment was rejected 42 to 30. The second Hull amendment to prohibit the purchase of additional lands at the Milwaukee normal at a cost of \$10,000 so that dormitories can ultimately be established there was also rejected. The assembly then engrassed the bill, which provides for improvements at practically all of the normals of the state.

The assembly passed the capital building bill, permitting the state to expend as high as \$1,000,000 in any one year, to hasten the construction of the capitol. This bill also allows the removal of the dome to Main hall at the university. The bill now goes to the senate. The bill to permit common councils to license peddlers, fortune tellers, palmists or trances mediums or suppress the same was passed by a strong vote.

The assembly passed:
800a. (Com.) Permitting fishing in certain outlying waters.
911a. (Com.) Exempting persons from taxation as personal property.
173a. (Finance.) Appropriation of \$8,000 to maintain the Phillipsville mining school.

43a. (Hartier.) Prohibiting in saloons the presence of persons under twenty-one years of age.
The assembly engrassed the Klaska bill for the establishment of a teachers' retirement fund in Milwaukee. Persons who have taught twenty-five years and are sixty-five years of age may retire on a pension of \$400 annually.

TOTAL ECLIPSE OF MOON MAY BE SEEN

Earth Will Shadow Planet For Over An Hour Tonight—Will Be Most Interesting Sight.

Washington, D. C., June 3.—Tonight the inhabitants of the greater part of the North American continent will have an unusually fine opportunity to see a total eclipse of the moon. The moon will be in the shadow of the earth for over an hour and practically the only light from the heavens will be that of the stars.

The reason why the moon will be invisible, as the phenomenon is explained by the astronomers, is the influence of the earth's atmosphere, which bends the sun's rays at the edges of illuminated hemisphere of our planet and throws on the moon a faint glow, usually of a red copper hue. It results from the absorption in our atmosphere of the green blue violet rays in the sun's light while the red rays pass through it. It is much the same as the sunset glow, though infinitely more faint.

The moon will not pass through the

central, and deeper, part of the shadow, and so will probably not be entirely lost to view at any time, although it will appear of a dull-red color, and will give so little light that darkness will prevail for more than an hour, and the stars will shine as brightly as on a moonless night. Were the moon to pass through the center of the earth's shadow, there would be a "black eclipse," lasting four hours, in the course of which the moon would probably disappear entirely from sight.

If the sky is clear tonight's eclipse can be seen without the aid of glass or telescope of any kind. Persons living in the Eastern section of the United States and Canada will see the moon rise before the shadow has advanced very far, while in some parts of the West the moon will be entirely covered when it rises.

Iowa Commercial Travelers

Mason City, Ia., June 3.—Mason City is entertaining during the remainder of this week the annual grand council session of the United Commercial Travelers of Iowa. TOP FOR MILK JARS

Has Handle By Means of Which They May Be Carried.

Two purposes are served by the combined cover and handle for milk jars designed by a Massachusetts man, as the name of the device indicates. The cover is a circular piece of flat metal with clamps extending downward so as to engage the upper end of the neck of the jar or bottle. The handle, which is connected with the cover, has its lower end extending downward so as to form a loop-back, which keeps the top from sliding off the jar laterally. The device can be adjusted in a twinkling, but it will not come off unless the handle is

EASILY PUT ON AND STAYS ON.

turned at right angles with the jar. When a bottle of milk is being carried by this means it can be swung around with no fear of the top coming off—it will not slide off the jar. The improvement of this device over the paper cover used on milk jars is readily apparent. It costs more in the beginning, but in the long run it will outwear thousands of paper tops and has the additional advantage of providing a handle.

Comptrollers and Accountants.
Detroit, Mich., June 3.—The fourth annual convention of the National Association of Comptrollers and Accounting Officers began a three days'

session here today with a large attendance of members representing the financial departments of various states and cities. The chief aim of the association is to bring about a scientific and uniform system of keeping public accounts.

Bankers of Two States.
Winona, Minn., June 3.—The bankers' association of the first district of Minnesota and the seventh district of Wisconsin met here today for a two days' joint convention. The postal savings bank situation, legislation and the banking code, examination of country banks, and real estate mortgages as an investment for national banks are among the questions to which the bankers will give their attention.

The Greater Character.

A man, no matter how capable, how theoretically wise or how singly successful, can find little satisfaction in isolation, for there is no glamor of romance in his career. Some one has said that the kingdom of romance belongs to David, not Samson—to David with his loving, generous, friendly nature, for whom three men went in jeopardy of life to bring him a drink of water—and all for love of him.

THE BINDING PLANT

Now that the twine-binding plant bill is killed, the following letter from Assemblyman Whittelet will be of interest. Senator Whittelet and the three Rock County representatives have opposed this measure from the start. Mr. Whittelet has given the matter thorough and intelligent investigation and will be seen by his letter.

"I desire to thank you for the article which you had in last night's Gazette in reference to the proposed twine-binding plant at the state prison. I wish to give you the facts which I have in my possession in reference to this matter. To my mind it is the big proposition before the present legislature and one that is fraught with the greatest danger, socialistic in the extreme.

"My constituency being entirely agricultural, I appreciated the matter in a frame of mind inclined toward the farmers. The appropriation asked for being large and my position upon the claims committee demanding that I have a thorough understanding of the matter, I took up a personal investigation and wrote to all of the various states which had twine factories and have upon my desk reports from all of the prison twine plants. "Not a single one, aside from the Minnesota prison, show a cent of profit after interest is figured upon the investment. The state of North Dakota has operated her plant six and a half years at a paper profit of \$1,414 and in this so-called profit not a dollar has been charged for the prison labor and not a dollar as interest upon the investment and nothing has been allowed for the depreciation of buildings, machinery, etc.

"The opinions of our farmer friends are molded largely by the press and I understand if the twine plant proposition is defeated at this time that two years from now a fight will be made to have a legislature that will incorporate such a plant. I shall keep all of the facts and information which I now have and if you desire any or all of the same at any time, I shall be pleased to forward the same to you. Above all things I should like to see a strong campaign made by the press against this proposition. Milwaukee papers are generally opposed to it. Indeed, I have yet to hear the first good argument for establishing such a plant. With kindest regards,

"Yours truly,
"I. C. WHITTELET."

A LITTLE PARTICULAR

This is the way they do it in New York:
A woman married a man in Montclair and she thinks she is going to keep him at home.
Justice of the Peace Williams married the couple. He would not give their names, but he gave out the following document that the man had to sign before the ceremony was performed:
I solemnly promise, before the justice of the peace and the woman I have asked to be my wife,
To give her my pay envelope, unopened, every Saturday night.
To be at home every night at 9 o'clock unless my wife is out with me.
Never to go to parties without her.
Never to dance with anybody else

without her permission.
To be kind always to her mother.
Never to join any lodge that does not admit women.
Never to smoke more than three cigars on a week day and not more than five on Sunday.
Never to smoke cigarettes at all.
Never to use profane language.
To beat carpets every spring without grumbling.
To do up my own laundry package each week.
Never to drink intoxicating liquors, except at the annual spring house-cleaning.
And,
Never to keep a dog.

State's Attorney Wayman of Chicago is doing good work for the city, and if moral support is not lacking he will clean up the town in good shape. His principal difficulty is in finding businessmen who are willing to serve as jurors, and he has just issued an appeal to them along the line of good citizenship, which should be effective.

The city of brotherly love is in the midst of one of the worst strikes that ever cursed any city. Property is being destroyed and life endangered, while the mob is in control of the streets. The traction company is the target and the outlook for a peaceable settlement is not very promising.

Senator Whittelet's bill for city rule by commission only lacks the governor's signature, to become a law. The city of La Crosse is likely to be the first municipality to try it, and others will soon follow. Rule by commission is concrete and intelligent, and will result in better city government.

If the amendments to the primary law, offered by the investigating committee, are adopted, the farce will look more like a crazy quilt than ever. The primary law compels men to crawl in the dirt as office-seekers, and the money consideration is the least humiliating feature.

The amount of money paid to estates in Wisconsin last year, on life insurance policies, was \$5,600,000, and the amount disbursed in this country and Canada was close to half a billion dollars.

The Browers' association of New York is advocating one saloon for every 750 inhabitants and argues that this would do away with many of the dives.

Night sessions of the senate will result in a speedy disposition of the tariff question, but it is extremely doubtful whether a downward revision will be perceptible.

Less blinding-twine discussion and more good roads would have been gratifying to the home constituency.

Heart to Heart Talks.

ON CHOOSING A WIFE.
Nothing is better established by human experience than that, other things being equal, a wife will make or mar a man's whole life.

Therefore the wisdom of a careful choice.
Firstly, as the preachers say—Do not expect to find a perfect wife. As the Irishman put it, she has never been born and her mother is dead. Even could you find the perfect wife she would soon become imperfect.
But if you will permit plain speaking there are some things that may be considered in the choice of a wife.
Let us take the matter negatively.
Do not marry for mere beauty. Beauty of face and form are nothing without beauty of character. If you can get both, well, but external beauty without a beautiful inner spirit may prove a snare.
Do not marry for money.
If other essential qualities go with it, money is no drawback. But money cannot buy domestic happiness, and it may be the means of much strife. Select a wife who is prudent and thrifty, and she will help you make your fortune.
Do not marry a foolish woman.
A silly, superficial wife may easily ruin the prospects of a home. There are many difficulties—especially in the earlier phases of married life that require large common sense and good judgment. The foolish woman is a poor partner.
Do not marry a lazy woman.
An indolent, lounging girl is apt to make a shiftless, slothful wife whose household will always be in disorder. Nothing so takes the heart out of a man as a lazy wife.
Do not marry an unhealthy woman.
Let us put the whole matter affirmatively.
Choose a wife who is wise, industrious, healthy; a wife who will help, a wife who will be kindly and patient, a wife who will grow in comradeship, a wife who will be gentle and generous and sympathetic, and last, but not least, a wife who will be affectionate.

Commonplace qualities?
Surely. Nothing is said of brilliancy, or social graces, or ability to dress, or conversational acquirements.
These gifts are worth while if accompanied by the substantial qualities of wifehood, motherhood, womanhood.
Choose yet!

By WALT MASON
(Copyright, 1909, by George Matthews Adams.)

There was a man, when the world was young, and he went around with an ugly tongue; it's the BITTER TONGUE said that nobody ever heard him utter a pleasant, kindly word. He liked to gossip of evil things, and all his sayings had barbs and stings; he stirred up trouble from day to day, and scattered poison along the way. At last death silenced the caustic tongue (these things occurred when the world was young!) and his neighbors carried his bones away, and buried them under five tons of clay; and the hands they played, and the whistle blew, and there never was such a hullabaloo! The hundred blazed and the cannon boomed, and the people joined in a big parade, and the children danced and the grownups yelled—O never was such a blowout held! For the man was dead with his caustic tongue; it was long ago, when the world was young!

Two Prisoners in Sparta Jail Waiting Trial Make a Get-away.

(SPECIAL TO THE GAZETTE.)
Sparta, Wis., June 3.—Jim Clairmont and Jim Bailey who were awaiting trial in the Monroe County Jail here on a charge of having blown open the safe of the bank at Warren near here on October 3rd last and securing over \$2,000 escaped jail some time between two o'clock and 5:30 Thursday morning. The delivery was discovered when Sheriff George Henry entered the cell room to carry the prisoners their breakfast at about 5:30. The prisoners got out of the cell by loosening bolts on the outside with a piece of iron taken from the underpart of their bed. They got out of the building by removing bricks to form a hole in the wall 18x10 inches in diameter.

German, and French War Funds.
At the present time, and for the future as well, there is lying at the bank of France in Paris a reserve gold store of \$800,000,000 which is in fact looked upon as a war fund. The German "Kriegsschatz," or emergency war chest fund, only amounts to \$20,000,000, and it is lying not in the Reichsbank at Berlin, but in the vaults of the Julius tower, in the fortress of Spandau, near the capital, against the coming of Germany's next evil day. It has been lying there as a dead fund ever since Germany received from France her war indemnity of \$1,250,000,000, from which it was taken.

Step to Prevent Forest Fires.
Maine has a new set of game laws which authorize the governor to suspend all hunting privileges during droughts and times of special danger from forest fires. Commenting on them, the Boston Herald says: "This precautionary power is wise. The chief fire warden of New York reports that one-third of the forest fires in that state last year were definitely due to hunters' carelessness. Many others, recorded as from unknown causes, may have had similar origin. Individual sport may well be checked or suspended in order to assure public safety."

If You Wait Until Your Teeth Ache

before you call on a dentist it is going to cost you more and be much more trouble than if you called once or twice a year to have them examined.

I am always glad to have you call and let me examine your teeth. I'll estimate the cost for you and explain what my "No-Pain" is and why I can do the work without pain.

Next time you are down town, come up and talk the matter over. Your call will be made pleasant.

TRIED TO THROW HIMSELF UNDER A MOVING TRAIN

Artie Wallisch, a Former Patient at Mendota, Made Attempt to End His Life This Morning.

Artie Wallisch, who has been living with his brother, William Wallisch, on Riverside street since he was released from the Mendota Insane asylum about two years ago, trying to throw himself in front of a moving train on the hotel line, not far from the Chicago Co's plant, this morning. Chief Anshel was so informed by G. W. Yardmaster David Griffin and the patrol wagon was sent after the man. The wife, who works in the woolen mills, has not been living with Wallisch for some time and the brother, under whose roof he has been sheltered, says that while Artie has been considered harmless, he has been acting queerly for some time. He was examined by Drs. Eddon and Judd before Judge Sale this afternoon and committed to the county asylum.

Early Use of Chocolate.
Although the "drink" called chocolate did not appear in England until 1657, its restorative properties soon became generally known. Thus, on May 24, 1661, after an evening of enraging, Pepys "worked in the morning with my head in a sad taking through the last night's drink, which I am very sorry for; so rose, and went out with Mr. Creed to drink our morning draft, which he did give me to chocolate to settle my stomach."

Sermons in Ancient Times.

St. Augustine's sermons lasted about eighteen minutes, but in that ancient day it was no uncommon thing to have several at the same service. When two or more bishops were present it was usual for them and the presbyters to preach one after the other, reserving the last place for the highest dignity. Some consolation, however, was to be found in the fact that applause was permitted and many of St. Chrysostom's sermons were hailed with the "tossing of garments and waving of handkerchiefs."

Stop Paying Rent and Own Your Own Home

To own REAL ESTATE is the best object a saving man can have; it is an incentive to save. If you are in middle life, you have already paid enough rent to own several good homes. If you are a young man avoid rent and become your own landlord; nothing makes one more independent.

ANDREW CARNEGIE

In speaking to a gathering of young men in Chicago, said: "There is no doubt but that Real Estate is the best investment for small savings. It is bound to grow into money. When you buy REAL ESTATE you are buying an inheritance."

DON'T PUT IT OFF! AND DO NOT FORGET that these lots are going to be sold, and sold at once. Never has such an opportunity been offered in Janesville to get property with all these improvements at such prices and on such terms.

(SPECIAL TO THE GAZETTE.)

Monroe, Wis., June 3.—City tax budget items are not referred to after taxes are raised according to a statement made by City Attorney Douglas, the budget serving merely to raise the money instead of setting forth the items for the purpose of applying the various amounts to special funds.

GERMANY'S AMBASSADOR RIDICULES WAR SCARE

Says the English Are Unnecessarily Alarmed and Have No Reason for Fear.

New York, June 3.—England's fear of war with Germany is ridiculed by Count von Bernstorff, ambassador from Germany who is in this city to receive an honorary LL. D. from Columbia university.

"England has no need to worry about the likelihood of war with my country," he said. "The kingdom of a few easily excitable persons in England will soon pass over. Between the two governments there is no misunderstanding or animosity and the real sentiment of the two peoples is not hostility or bitterness, but a healthy, temperate, good-natured rivalry."

"Germany is very proud of the progress which Count Zeppelin and our other aeronauts have made. But the English yellow journals are of course wrong in their efforts to make war talk out of our efforts to conquer the air. We are building no secret fleet of war ships and we have no secret balloons hovering over the English coast."

St. Petersburg, June 3.—A meeting between Emperor William and Emperor Nicholas has been arranged, and will take place in the waters of the Finnish gulf. The exact date of the meeting will be decided upon later, but it probably will be June 17.

The German Emperor will arrive on the imperial yacht Hohenzollern, while Emperor Nicholas will be aboard the Standart, accompanied by M. Iswolsky, the foreign minister, and Admiral Voevodsky, the minister of marine.

The news of the proposed interview between the sovereigns, coming so soon after the settlement of the Italian crisis, has aroused eager speculation among the diplomats at St. Petersburg. It was supposed in some quarters that German mediation, which had ended the crisis, had left a heritage of bitterness which would estrange the two monarchs and lead Russia to identify herself more closely with Great Britain's continental policy.

Berlin, June 3.—The emperor has sent the following telegram to Count Zeppelin:

"Congratulations on your remarkable return trip to Friedrichshafen with the provisionally repaired airship, which proves the capacity of the rigid system. As I shall be absent from Berlin six weeks from now, I suggest that the Berlin trip be undertaken August 26."

MOBS SET STREET CARS AFIRE.

Rioting in Philadelphia When Night Service Starts.

Philadelphia, June 3.—One policeman shot, and probably fatally injured, nearly a hundred persons, bruised and battered either by policemen or strike sympathizers, and five cars wrecked and then burned, is the result of an attempt on the part of the Philadelphia Rapid Transit Company to operate cars last night by imported strike-breakers.

As one car after another left the car barn crowds stood on the street corners in silent silence. Finally a boy cried "scab" and immediately he was pursued by a policeman who was riding on a car. As the officer started for the youth the crowd closed in upon him and so quickly was this done that he was unable to draw his revolver. The weapon was taken from him and is believed to have been the same revolver with which Policeman Levy was shot a few minutes later. In less than half an hour seven cars were wrecked, five being completely demolished and burned.

AWAIT CHEMICAL ANALYSIS.

Report Will Decide Future Action in Archer Death Case.

Galveston, Ill., June 3.—Knox county authorities are awaiting the result of a chemical analysis of the stomach of Mrs. Josephine Archer, whose body was discovered at Onondaga three weeks ago, in the suspicion that her sudden death in California was due to poison.

It has developed that the husband insisted that Mrs. Archer should dispose of her Knox county property before they were married and invest the proceeds in Los Angeles property where he could have control of it. Mrs. Archer, however, left a will at her death which left the husband with a small sum of money and the balance to the two daughters. The California law, however, gave Archer command of the estate and its distribution.

We don't have to change our plan to comply with the law. Order MARVEL Flour from your grocer now. If he can't supply you, send us his name and we'll see that he does.

Don't eat baker's bread unless you know that it is made from unbleached flour, and demand that that flour be MARVEL. We mill only the highest grade hard wheat, and yet our flour costs no more than the poorly made and bleached product. MOST IMPRESSIVE CEREMONIES HELD

DECORATION OF CHIVALRY DIVISION TO NINE REBEKAHS.

VAST RINK WAS CROWDED

Beautiful Ceremony Given Preceding the Dance of the Evening.

With impressive ceremony, amid the glare of hundreds of electric lights, flanked by uniformed guards with brilliant plumes and shining swords and surrounded by a dense throng that occupied every seat and banked up behind the railings, a vast assembly gathered upon the space reserved for the ceremony, the decoration of Chivalry was conferred upon nine daughters of Rebekah by Maude A. Hanes, General Commanding the Patriarchal Militant, at the West Side rink last night at eight o'clock.

Those upon whom the degrees were conferred are: Mary Miller, Madison; Jane Beach and Emma Stow, Appleton; Eliza Warren, Alice Merrill, Eliza Tammie, Florence Watson, Flora Warron and Lillie Schwartz, of Janesville. Dancing followed, the exercises and lasted into the evening. The music was furnished by Knoff & Hatch's full orchestra, and during the progress of the dance, refreshments were served.

The building, in honor of what was the most impressive and beautiful ceremony of the convention, was elaborately decorated with flags, bunting, emblems and lights, and although large, was barely able to accommodate the throng of delegates who came to view the proceedings. As early as half past six the first spectators had begun to arrive and by half past seven, the rink set for the opening of the ceremony, every seat had been filled, while many were forced to stand, packed closely behind the railings and some, some even standing in the open space reserved for the participants in the work of conferring the degree.

Under the strong glare of the lights, the white and sunny dresses of the women, the brilliant uniforms and plumes, and the shining swords of the guards and officers, all made a picture long to be remembered by those who were present.

At the eastern end of the hall, in the open space set aside for the participants, a tent, containing four chairs and flanked by two large American flags had been set up.

Surmounting the tent were the golden-braided three links bearing the gold letters, F. L. T. In the center, near the south wall, a platform upon which were seated Mayor W. F. Carlo, Past Grand Master P. A. Badour, Past G. W. Warron, Emma C. Lamb, and other notables, had been erected.

At eight o'clock, General Maude A. Hanes, attired in full official regalia, a white uniform with a gold sash and white plumed helmet, followed by other high officials and surrounded by officers marched to the tent and awaited the coming of the candidates and their guard of honor. Accompanying them were the four Rebekah officers who had been designated to assist in the conferring of the degree, Mrs. Mae Crowell, of Rockford, Ill.; Mrs. Ruth M. Chamberlain, Mrs. Ollie M. Wood and Miss Anna Ross Layman, all of Chicago. The assistants were also in uniform, consisting of white dresses, short dark cloaks, and long streamers of red, white and violet ribbon. Each deputy was attended by a member of the Rebekahs.

Immediately upon the seating of the grand officials, the thirty guards of honor, consisting of two squads of six each in charge of a lieutenant and another squad of fifteen in charge of a captain, all belonging to Canton 6, Janesville Patriarchal Militant, marched upon the floor and stood at attention.

With the guards standing at attention and the eyes of the spectators fixed upon the entrance, the nine candidates, dressed entirely in white and preceded by two small girls, were escorted to the floor and after being taken in charge by the captain of the guards, took their places in the center, the guards standing uncovered with presented swords. They were then addressed by one of the general staff and after expressing their intention of taking the vows washed their hands in token that they had cleansed themselves of their sins and purposed to lead a pure life.

Their effort then asked for an interview with the department commander, and, after their credentials had been examined and presented, they were addressed by General Hanes who administered the oath whereby the candidates pledged themselves, and swore the sick, relieve distress, and do everything honorable, suppress all vice, and in fact, do good whenever possible in the sphere appropriate for a lady.

The candidates were then addressed in turn by the four Rebekah Deputies, Mrs. Mae Crowell, Mrs. Ruth M. Chamberlain, Mrs. Ollie M. Wood and Miss Anna Ross Layman, who, in a few words, advised them of the duties they had obligated to do in taking the oath, and warned them of the solemnity of their vows.

After the deputies had finished, General Hanes explained to the candidates the symbolic meaning of the badges of Chivalry with which they were to be decorated, which were then placed on a short prayer was then given by A. J. Clark after which the ceremonies were brought to a close and the recipients of the degrees dispersed to accept the congratulations of their friends. The ceremony was immediately followed by the conferring of the degree, the floor was cleared and at 9:10 the music struck up for the grand march which lasted for nearly half an hour. The march was accompanied by General Hanes in full uniform followed by four of his staff and the four Rebekahs from Chicago.

Following the march, the members of Canton 6, Janesville, according to the hall which had received the degree of Chivalry and these were followed by nearly one hundred other couples. Nearly 125 couples took part in the march.

At one time, considerable alarm was felt on account of the fact that the floor near the center was felt to give twice and it was thought for a moment that the supports underneath

had given way. There was no excitement, however, and the occurrence did not again take place.

GOING TO HILL RAILROAD.

John F. Stevens Will Work for the Great Northern.

St. Paul, Minn., June 3.—President L. W. Hill of the Great Northern railway announced that John F. Stevens, who resigned as first vice-president of the New York, New Haven & Hartford railroad, would join the Great Northern for a brief time.

"Mr. Stevens has been engaged by the Great Northern Railroad Company," said Mr. Hill, "to inspect and report on the road's water power in Montana and Washington, and look into other engineering questions that are now up for consideration. He was engaged because he is the best man in the country to do the work, and because, as he was leaving the New Haven road, he was at liberty at the right time. The work he has ahead of him will require about six weeks, and as he will finish so soon, he will not bring his family west with him, and will not open offices in St. Paul."

The members of the tourist club held a picnic last evening on the lawn at the home of Miss Pearl Campbell. The affair was given in honor of Miss Blanche Hesse who leaves for her home in Lawrence, Michigan, next Saturday.

The Evening Chit-Chat

By RUTH CAMERON

LOOK at Audrey's hands," said my right-hand neighbor suddenly. I looked.

Audrey was dealing the cards at the next table from us at an afternoon whist, and the hands that fitted over the card table were indeed pretty and plump. But I didn't see just why I had been instructed to look at them at that precise moment.

"What for?" I asked.

"Well, did you ever see anything more attractive?" said my right-hand neighbor.

"Any more so than the rest of the girls' hands?" I protested.

"Yes, that's why I told you to look at them," she reiterated. "See how perfectly her gloves fit and how the whole thing is just the right length. Then her nails are so beautifully manicured and her fingers are clean. Don't you see that every detail is perfect?"

And I admitted I did and began to think.

Perfection of detail is a thing most of us are in too much of a hurry nowadays to attain.

We go in for general effect and are satisfied with that. We take the style and let the finish go.

Of course finish is a very rare and elusive quality. Like genius, it requires an infinite capacity for taking pains. But the woman who somehow manages to hog, borrow or steal enough to make herself a finished product is the woman one can take pleasure in looking at whether she is pretty or not.

And though for most busy mortals absolute perfection of detail is an impossibility, comparative perfection isn't.

I know a working girl who has rather handsome clothes. She spends her money freely and buys expensive suits and becoming hats. But she never makes a thoroughly good appearance simply because she is careless about her shoes and gloves.

Another girl has pretty clothes and is neat as to gloves and shoes, but for two years she has carried a worn-out handbag, and when it is rainy a large cotton umbrella with a dilapidated handle.

I call these women extravagant, or at least poor business women, since by failing to invest just a little more money they depreciate the value of their original investment.

They say a detail is as weak as its weakest link.

And to the critical eye one's appearance is only as attractive as its most unattractive detail.

Of course we don't live for critics, but it's mighty nice to be able to defy them.

FAILURE FOR \$1,500,000 RESULTS IN INDICTMENTS

Detroit Broker and Six Employees Held on Charges of Criminal Irregularity.

Detroit, Mich., June 3.—Louis H. Case, managing partner; Herbert R. Page, Robert L. Edwards, Ernest Kracke and William H. Stritzke, clerks, and William Rowland and Frederick T. Dolan, telegraph operators, are under indictment for criminal irregularity as a result of the \$1,500,000 failure of Cameron Currie & Co. last July.

Three indictments were returned, one being against the seven men jointly and two against Case individually. One indictment charges Case with wrongfully converting a check for \$15,000 on complaint of James A. Currie in connection with a deal of 200 shares of P. C. & St. L. railroad stock. One alleges that Case wrongfully converted a check of \$12,250 to have been drawn by Harvey Miller payable to the firm of Cameron Currie & Co. The third indictment charges Case, jointly with the others, with being implicated in an alleged conspiracy to defraud the Currie firm of a sum alleged in the indictment to be \$50,000.

It is alleged that the indicted men jointly, by the use of fictitious names and names of citizens used without their consent, conspired to defraud Cameron Currie by unauthorized use of the Cameron Currie & Co. credit with Hayden, Stone & Co. of Boston and other similar institutions and banks.

The indictments were returned after an extended hearing. Police Justice Stein sitting as a grand jury. The writs were immediately placed in the hands of officers and the indicted men were notified to appear in court.

GANGER CAN BE CURED

By my method, I use no knife or X-Ray. During my nineteen years of practice I have cured many cases of cancer and in not a single case has there been a recurrence. I guarantee to refund every cent paid me in case of a recurrence. I can give you the best of references and financial stability. The following letter is from a patient whom I cured and bespeaks his appreciation of my services:
Dr. G. H. Webster, Jansville, Wis.
Dear Doctor:—I want to tell you how thankful I am for the cure of the dreadful cancer on my lip. The way you remove cancers without a knife or X-Ray and without the loss of one drop of blood by the patient is wonderful. All who suffer with a cancer I advise to go to you for a cure. I consider no price is too large to pay for a cure. I give you the liberty of using my name where it will add the unfortunate sufferers from cancer to find a cure. I am, respectfully,
JACOB BICE, Hayward, Wis.

Only Way to Win Friendship.

Friendliness is a virtue of virtues. Until you are ardent among persons unfriendly, you do not realize the value of a responsive companion. Many persons called cold and quiet are only timid. The circumstances of their life have made them timid. No word of friendliness is lost. Scatter kindness freely and your reward will come.
